******** DEMOCRATIC PLATFORM.

We, the Democrats of Salt Jake City in mass convention assembled, hereby reaffirm our belef in the time-honored principles of the Democratic party and our allegiance to its organization, national and local,

"We hold that a public office is a public trust, and that the affairs of the city should be conducted carefully and economically. We favor the nomination of clean, honorable and capable candidates for the various offices, and pledge them to the faithful discharge of their duties when elected.

"We are proud of the record of our party in its administration of the city's affairs in the past, and call upon all good citizens irrespective of party affiliations to support our ticket in the coming city election.

The Democratic mass convention to same candidates for the city and counmanic tickets held at Labor hall ast night was fairly well attended and othusiastic, though many old-time Democrats were absent. A platform maspicuous for its brevity was adopted, and candidates were named, with fer exceptions, as forecast in The "News" yesterday. The main exception was that of John Dern, who deelized the nomination and advoitly slaced himself out of the running by being elected one of the members of the nominating committee. W. R. Wallace was named by acclamation as the Demeratic standard bearer in the coming municipal election

W. G. FARRELL, CHAIRMAN.

Chalrman Ben T. Lloyd called the meeting to order and introduced Will G. Farrell as chairman. Mr. Farrell G. Farrell as chairman, Mr. Farrell said the Democratic party had been wandering in a maze of political uncertainty which made the large attendance at the mass convention look like a presense of victory at the coming election. He said the party would present a united front in the campaign with a good chance to win out.

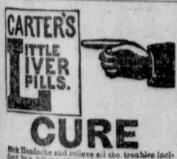

chance to win out.

The chair then named a committee on resolutions, consisting of five members, one chosen from each ward, as follows: B. T. Lloyd, W. H. Dale, John Dern, Richard P. Morris and James H. Moyle. On motion the name H. Paul was added as a member

The chair next appointed a committee of five, one from each ward, to name a ticket and present it to the named was Joseph Hyde, First Pelt. Third: John Dern, Fourth, and J. H. Moyle, Fifth.

A recess was then taken to allow the committees time to attend to their tork, and to permit the various wards b get together on naming candidates for the city council and for the city committee. All the wards but the Third made their nominations without dissension and reported them back to the convention; but in the Third the debate grew warm and the delegates were unable to agree on candidates for the council. The city committee was shally empowered to call a ward primary in the Third, at which the matter will be presented to the Democrats of the ward.

SAM WATSON AT THE ORPHEUM.

Sam Watson, who is appearing this week at the Orpheum theater with his Farmyard Circus, is an old time performer, and his animal act is the cleverest playing over the Orpheum circuit, while his "little pink pig" with which he appears in the above picture, is the provoker of extraordinary interest and merriment at every performance. Many people wonder how it is that Sam has trained some of his animals-to wit, his roosters and cats-to accomplish some of the stunts they perform. Sam avers, and it is easy on looking into his open countenance to believe, that it is all done by kindness, and though he may hold old fashloned beliefs, he believes that a kind word or a pat on the head does more good than a swish from the whip. He never uses the hammer, either before, during or after his act, and this is one of the principal reasons that his animals work with such a good will and display such fond affection for their master. Sam's wife personally bathes all her pets, and they are all spotlessly clean and as white as snow. The animals should amuse many a youngster and grown-up, being all this week at the Orpheum

given, which was adopted unanimously. It was also stated that a supplementary address would be prepared to present to the people in connection with the platform, which on account of the limited time allotted to the committee, did not contain all that the party would like to say on the question of local like to say on the question of local politics. The committee will in a short time prepare and issue the supplemen-tary address, which is to be consid-ered a portion of the Democratic plat-

The nominating committee then pre-sented the following ticket for city of-fices, which was ratified without dis-

sension:
For mayor—W. R. Wallace.
For recorder—A. N. McKay.
For treasurer—Byron Groo.
For city attorney—C. C. Dey.
For auditor—W. J. Bateman.
W. R. Wallace, the nominee for mayor, was present and made a brief speech of acceptance.

COUNCIL NOMINEES. The ward committees then reported their nominations for the council with the exception of the Third, the mem-bers of this ward being unable to agree. The candidates reported were as fol-

Fourth Ward-Orlando W. Powers, long term; Joseph Kimball, short term. Fifth Ward-Noble Warrum, long term: S. M. Taylor, short term.

The above nominations were ratified

by the convention, as were also the following named members of the city committee, named by the various First Ward-Joseph A. Young, chair-man; Frank Rawlings, Herbert L. Pen-

IN THE THIRD.

Five candidates for the council appeared at the gathering of the delegates from the Third in the nomination caucus, namely, John Holley and H. T. Cowburn, present councilmen from the ward, and W. J. Korth, Joseph Haslam and H. H. Walters, Perley Hill near cuts, namely, John Holley and H. T. Cowburn, present councilmen from the ward, and W. J. Korth, Joseph Haslam and H. H. Walters. Perley Hill was named as chairman of the caucus. On the first ballot with a total of 119 votes, John Holley had 25, Korth, 28, Haslam, 23, Walters 28 and Cowburn 5. This shill out both of the present councilmen from this ward. Korth seemed to have a plurality of the votes cast, but somebody charged that he had packed the convention with non-residents of the ward. Then the wrangle started. The chairman ruled that he would not declare the vote until it was shown that every man voting was a resident of the ward. An attempt to settle the matter was made by taking another ballot. This time Korth received 35 votes, Walters 25, Holley 25, Haslam 21 and Cowburn 5. The chair declared Holley and Cowburn out of the race, and insisted that each voter should prove his residence in the ward. This was heing done when Holley moved to adjourn. A vote on the motion was apparently lost by a vote of 31 to 33, but Chairman Hill declared it carried by a vote of 21 to 28, and he declared the convention adjourned and so reported to the city convention.

The city convention, on protest of Karth, rejected the report of the committee from the Third, and ordered it to reconvene for the nomination of councilmanic candidates. Another session was held and after an hour's wrangling the chairman reported that Holley and Walters had been selected as the ward's candidates. Korth's supporters again protested and the convention again rejected the report and empowered the city committee to call a primary for a ward convention to name the candidates for the convention adjourned.

Familyman Pays for Butter He Does Not Get. Say Officials.

In a month the residents of Salt Lake City pay for \$15,000 worth of Lake City pay for \$15,000 worth of butter which they do not get on account of the short weight, according to figures compiled by City Pood Inspector Walter J. Frazier and Willard Hanson, state food and dairy commissioner. This amounts to \$189,000 a year, or about \$500 a day. The butter consumption of Sait Lake amounts to about 500,000 pounds. On a monthly basis the consumers pay for \$7,500 pounds of butter which they do not get, on account of the short weight. This raises the price of butter to about

46 cents a pound, according to the fig trust of the pure food authorities.

They charge that there is a butter trust in Sait Lake City. The total output of butter is handled by three wholesale houses. One-half of the butter supply is shipped in from the east and placed in cold storage here. The wholesale commission merchants are also ac cused of reducing the butter fat. For instance, 100 pounds of butter fat makes 116 pounds of butter. The butter fat is reduced until the wholesaler can realize 125 or 130 pounds out of the amount. The quality of butter which is now being sold on the market, the authorities say, does not warrant the recent increase from 35 to 40 cents a pound.

The U. S. Government in its "Pure Food Law" does not 'indorre' or "guarantee" any preparation, as some manufacturers in their advertisements would make it appear. In the case of medicines the law provides that certain drugs shall be mentioned on the labels, if they are ingredients of the preparations, Edy's Cream Fa'm, the well-known family remedy for cold in the head, hay fever and nasal catarrh. he head, hay fever and nasal catarrh, the head, hay fever and hassi catarra, doesn't contain a single injurious drug, so the makers have simply to print the fact that it complies fully with all the requirements of the law.

Exhibt for State Fair Enters Competition for Prizes.

The fruit growers and business men of Green river valley in eastern Utah have started a movement to bring a big exhibit to the state fair with the determination to carry home all prizes in the departments in which they compete. While the crops this year are not as large as they have been in previous years, the quality is considered much better, and it is claimed that the apples, pears, and plums especially are not excelled by those grown in any section in the west. It is understood that the Commercial club of Green River City is behind the movement, and every effort will be made to capture a large number of made to capture a large number of

Inquiries are being received by Secretary Ensign from all over the country relative to the state fair, and many magazines of the east and west have requested full information together with photographs of scenes: in the fair. These requests are all being complied with, and Utah will get a great amount of free advertising as a result. The work of clearing and beautifying the grounds is progressing in a satisfactory manner, and workmen are now engaged in installing flower beds and fountains. Preparations for the elaborate illuminations are also being made, and the ations are also being made, and the general appearance of the grounds being improved wherever possible. The officials are taking this work in hand in plenty of time in order to insure everything being in readiness for the appening day.

H. G. McMillan and F. J. Hagenbarth H. G. McMillan and F. J. Hagenbarth secured judgment vesterday in Judge Morse's court afainst Charles W. Whitley for \$5,362.50 in a mining stock transaction. The suit was the result of a pool in which McMillan, Hagenbarth, Whitley, Simon Bamberger, J. Barnett, and W. H. Dickson entered into on March 15, 1903, for the purchase of Daly-West stock. Whitley's share was one-thirteenth of the purchase in the pool.

was one-thirteenth of the purchase in the pool. The pool purchased 2.185 shares and then sold 200 shares. Then 762 shares were taken up by subscribers other than the defendant. Whitley's interest amounted to 153 shares, valued at \$5,-262 59 which he refused to take and pay for.

As a defense Whitley alleged that the

pool was so manipulated by the plain-tiffs to depreciate the value of the stock. He said that the plaintiffs did not tender him the stock when it was \$43 a share but held it without h's authority until it fell to \$9 a share.

MISS EVANS CONCERT.

Interesting Event Set for Friday at The Theater.

The testimonial to be tendered to Miss Edna Evans in the Salt Lake theater next Friday night promises to be an interesting event in local music circles. The popularity of the young singer is demonstrated by the fact that several of the stalls have been reserved, and that parties are being made among the younger musicians of

city. A large delegation from the University of Utah, where Miss Evans has been engaged for some years, will be in attendance, and the management say the indications all point to a rousing farewell reception. Miss Evans has been before the Sait Lake public for some years, and has forged her way to the front ranks of local musicians; her voice and charm-ing personality should win for her a place, and with her talent and an

Mrs.: E. E. Shepherd, the well down and talented temperance speakr and one of the most prominent of ficials of the W. C. T. To a representative of the "Acws," Mrs. Snepherd said:

While in Bingham county, was a guest of President James Duckthe purest, strongest, and finest i was a guest of President James Duckworth of the Blackfoot stake of the Mormon Church, who arranged all my dates through the county; and on Monday night preceding the election, I spoke before a large open air meeting, on the principal corner in Idaho Falis, speaking from an automobile, and assisted by a brass band. There were 1,500 people in the audience, Bingham county went dry completely, one ward only, in Idaho Falis voting wet. From Bingham I went into Fremont county, making St. Anthony my hondquarters. This was the one place in doubt, so I held three meetings at that place, closing there also with an open air meeting, assisted by the Boys' band from the Industrial school. I spoke every night in both counties for the time I was in that section. Yesterday, I was the guest of ho

at a reception given in Idaho Falls, and last night held another large meeting at the Falls in the interest of law enforcement. It might be noted as a fact that the Mormons stood with me in this fight for local option. There were crowds everywhere to listen, the enthusiasm was great, and the interest were crowds everywhere to listen, the enthusiasm was great, and the interest was very marked generally. No matter what night it was, we had packed houses at all of these meetings. One evening, I drove 26 miles to make an appointment, and at another time 18 miles. The whole southeastern part of Idaho is bound to go 'dry,' the heft of the fight being maintained in Elmore, Lincoln, Custer and Blaine counties, and Custer is the one place that we are in doubt about. I believe we will carry the other counties eventually. Ex-Gov. Gooding presided at a street meeting I held in the town of his name, where he made the assertion that Idaho would have no more than two 'wet' counties at the meettion that Idaho would have no more than two 'wet' counties at the meeting of the next legislature. He said that then Idaho will declare for statewide prohibition. I think the law is best enforced at Moscow of any town I have visited. Lewiston declares it will be 'dry' although the liquor element is putting up a strong fight. There seems to be no doubt on the part of the politicians in the state that northern Idaho will fall in line for prohibition."

On Thursday morning next, Mrs. Shepherd leaves for the northeastern side school for \$96.25. Pomercy Spencer was given the contract for installing a new heating plant at the Summer school at the cost of \$5.996. Superintendent D. H. Christensen submitted the list of nominations for school and the college department of the state school of education. The board adopted the list which practically exhausts the list available from Salt Lake. They are as follows:

On Thursday morning next, Mrs. Shepherd leaves for the northeastern part of the state, where she will speak in the interest of prohibition for 10 days. On her return from this trip Mrs. Shepherd goes to Oregon to be national speaker at the state convention of the W. C. T. U. at Hood River. She will also fill an engagement at Portland and Seattle on this same trip. As an estimate in which Mrs. Shepherd's work is heid, particularly in the northwest, the following from a recent issue of the Portland Evening Journal will give a very fair idea:

"Mrs. Shepherd is making an enviable reputation as a temperance orator, and is well worthy of all the good things that are said of her. It is safe to say that few audiences have been better entertained than this audience, as in a witty, logical and winsome

DATA ON MANUFACTURES.

With the view of securing complete data regarding all the factories of the state, and their products, which is to be tabulated and used in the aggregate to boost home products, the Utah Manufacturers' association, through its secretary, is sending letters to the different manufacturers of the state asking for information as to the amount of capital invested, number of employes and the amount of the payroll. Also, the kind of material produced, with the output, in inquiry is also made as to the need for more capital, and suggestions are asked for which might be helpful to the Manufacturers' association. A hearty response to these inquiries is looked for, which will place the Manufacturers' association in closer touch with all the home enterprises. state, and their products, which is to the home enterprises.
